

LAITGRAS-50

Fat-filled whey powder with 50% oil/ fat

Vegetable oils (Coconut oil / Palm oil)

Lard

Blends (for example 80 palm/ 20 coconut)

Crystallized whey, fat added, homogenized and dried in atomization tower. For FEED.
is also available with emulsifier for milk replacer production.

GENERAL CHARACTERISTICS:

Colour:	creamy white	pH:	6,2-6.8
Solubility:	>99%	Antioxidant:	B.H.T.
Density:	450 gr/l		

ANALYTIC COMPOSITION (percentage over total):

Moisture	2.00 % max.	Total fat content	50,00 % (±1)
Lactose	36.00 %	Free fat content	8-12 %
Total protein	6.50 %	Total ash	4.50 %

MICROBIOLOGICAL ANALYSIS:

Total count:	<150.000/g	Pathogens:	Absence/g
Coliforms:	<10/g		

FEATURES:

ESSENTIAL in **YOUNG ANIMAL FEED** as a contribution:

- **ENERGETIC:** High energy with low percentages.
- **GLUCIDIC:** Lactose, its main sugar, is highly digestible in first age.
- **PROTEIC:** Lactic proteins of high digestibility.

ADVANTAGES OF USE:

- + Product of high digestibility.
 - * Protein composed by Lactalbumin and Lactoglobulin.
 - * Homogenized fat that suppliers fat globules of reduced diameter, favouring the enzymes activity and its consequent absorption.
- + Avoids oxidation and rancid problems.
- + It makes the handling easier because its perfect mixture with the ingredients.
- + Improves ration's desirability.

PACKAGING:

Bags of 25 kg and big bags of 1,100 kg.

LECHES MATERNIZADAS, S.A.
